

Material Safety Data Sheet

Povidine Intima

Section 1: Identification of the substance/mixture and of the company/undertaking

Product name: Povidine Intima

Product Description: Bactericidal, virucidal, fungicidal foaming gel for intimate disinfection.

Instructions for use: Put sufficient amount on your hand towel or on your actual hand and wash the external part of your genitalia.

Shelf life: 36 months in original packing

Code: B-1100

Company: Lyphra-France

Postal address: P.O Box 30-43

Address: Beirut – Lebanon.

Tel: +961 3 065652

Emergency tel: +961 3 248157

Website: www.lyphra-france.com

Email: info@lyphra-france.com

Section 2: Hazards Identification

Main hazard: Mild eye irritant

Flammability: Non-flammable

Biological hazards: none

Reproduction hazards: none

Health effects (eyes): causes irritation

Health effects (skin): Can cause irritation if left in contact with the skin, undiluted for long periods. Can cause sensitisation in sensitised individuals. In case of sensitivity cease using this product

Health effects (inhalation): none

Health effects (ingestion): Oral ingestion may result in mild gastrointestinal irritation with nausea, vomiting or diarrhoea.

Carcinogenicity: none

Mutagenicity: none

Neurotoxicity: none

Chemical hazard: none

Section 3: Composition

Active ingredient: PVP-I and other active ingredients.

Hazardous components: none

Section 4: First aid measures

Product on skin: wash well with plenty of water if irritation occurs. If irritation persists, seek medical advice.

Product inhaled: not applicable

Product in eye: If in eyes, hold eyes open, flood with water for at least 15 minutes and see a Doctor if pain persists

Products ingested: If swallowed do not induce vomiting. Give a glass of water. Seek medical attention.

Section 5: Fire Fighting Measures

Extinguishing media: The material is not flammable. In case of fire water, water fog, dry chemical, CO2 or foam can be used.

Advice for fire-fighters: During all fire fighting activities, wear appropriate protective equipment, including self-contained breathing apparatus

Section 6: Accidental release methods

Personal precautions: wear self contained breathing apparatus

Section 7: Handling and Storage

Suitable storage and/or handling material: No special requirements but should be leak proof and capable of withstanding a drop of .5 meters without breakage Ingredients should not react with packaging material

Storage and/or handling precautions: Store product in a cool place out of sun. When handling, DO NOT eat, drink or smoke. Keep containers securely sealed when not in use. Avoid physical damage to containers. Always wash hands with soap and water after handling. Use good occupational work practice. Atmosphere should be regularly checked against established exposure standards to ensure safe working conditions are maintained. Avoid mixing with detergents.

Section 8: exposure controls\ personnel protection

Engineering control measures: none.

Personnel protection (skin): none necessary

Personnel protection(respiratory): none

Personnel protection(eyes): Avoid eye contact.

Other protection: Handle in accordance with good industrial hygiene and safety practice

Section 9: physical and chemical properties

Appearance: light gel

Odor: Jasmine/ vanillin

PH: not applicable

Melting point: not applicable

Flash point: not applicable

Flammability: not flammable

Explosive properties: none

Vapor pressure: not available

Density: not available

Neurotoxicity: none

Solubility (water): complete

Solubility (solvents): other alcohols, ether, chloroform

Section 10: Stability and Reactivity

Conditions to avoid: do not use on surfaces or equipment where it might come into direct contact with the material below.

Incompatible materials: oxidizers, acids

Hazardous decomposition products: May include and not limited to oxides of carbon, oxides of nitrogen, ammonia, oxides of sulphur when heated to decomposition. May include and are not limited to: Oxides of carbon. Oxides of nitrogen. Iodine

Section 11: Toxicological Information

Acute toxicity: LD50 (ORAL, RAT) > 400G\KG

Skin and eye contact: refer to section 3

Chronic toxicity: none

Carcinogenicity: none

Mutagenicity: no adverse mutagenic effects indicated

Reproductive hazards: no adverse reproductive effects indicated

Section 13: Disposal Considerations

Disposal method: Dispose large volumes to lined landfill or approved incineration system in accordance with commercial disposal procedures

Disposal of packaging: not applicable

Section 14: regulatory information

Specific regulations: Not applicable.

Chemical safety assessment: A chemical safety assessment has not been carried out for the substance or the mixture by the supplier.

Section 15: Other information

Disclaimer: The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. This company shall not be held liable for any damage resulting from handling or from contact with the above product.

Recommended Use: For use on skin and mucous membranes.
